

MOHAMMED ZEESHAN MUKRAM

JAVA FULL-STACK DEVELOPER

PROFILE

Java Full Stack Developer with experience in developing scalable and user-friendly web applications using Java, Spring Boot, Hibernate, SQL, JavaScript, HTML, and CSS. Skilled in REST API development, database optimization, and creating responsive front-end interfaces. Known for problem-solving abilities and delivering efficient, secure solutions.

WORK EXPERIENCE

Jun 2024 - PRESENT

Intern | Java Full Stack Developer

Company: KodNest, Bengaluru, Karnataka

- Developed web applications using HTML, CSS, JavaScript, Java, Spring Boot, Hibernate, and MySQL.
- Designed and optimized RESTful APIs, enhancing back-end communication.
- Improved user interfaces, ensuring responsiveness and interactive features.

PROJECTS

Note Application

Technologies: Android Studio, Java, XML

- Developed a Note Application which acts as a digital note book for the user.
- The Note application enables users to save, manage, and delete notes efficiently.
- Leveraged Android Studio to design user-friendly interfaces and Java/XML to ensure seamless functionality.

A Shoulder Surfing Resistant Graphical Authentication System.

Technologies: HTML, CSS, Java, MySQL, Eclipse

- Developed a secure three-tier authentication system, enhancing privacy and preventing unauthorized access.
- Utilized Eclipse IDE for efficient development and debugging, ensuring robust and maintainable code.
- Designed and tested the authentication workflow to deliver a seamless user experience.

CERTIFICATION

- Java Full Stack Internship, KodNest.
- Full Stack Web Development Internship, Aryabhata Tech Solutions.
